SUMMARY:

I am a junior Front-End developer. I am working on HTML5, CSS3, JS, React. I am active, goal-oriented and love teamwork. Team spirit, self-development and results are important to me. I am looking for a remote job with the opportunity to develop and develop a team.

MY LAST PROJECTS:

- ### Filmoteka:

Filmoteka is a team project made in JS. This is a service that helps you choose a movie. It implements a search, a modal window with information about the movie, pagination, authorization and adding a movie to the watch list or to the queue. In this project. I was a team leader.
